

The 2012 Safety Center Symposium

“Emergency Response System As It Relates To Southern Illinois”

The SIUC Safety Center has been in existence for over 40 years. Our Safety Center houses two state funded training programs: A child passenger/occupant protection program and a motorcycle rider training program.

The purpose of the 2012 symposium is to introduce SIUC faculty members and others interested in safety and injury prevention to the Illinois Medical Emergency Response Team (IMERT).

IMERT is a non-profit organization comprised of hundreds of medical and support team volunteers from all areas of the state. IMERT has been deployed to multiple disasters, including twice to Louisiana in the wake of Hurricane Katrina, the floods of 2008 and 2011 and many high risk/high profile events throughout Illinois. IMERT also works and

trains with many other state agencies including; IEMA, IDPH, Medical Reserve Corps, and the State Weapons
