

**FIND OUT HOW
YOU COULD
SAVE A LIFE**

SIU FOR ARI!

Ari,
searching
patient

Ari was diagnosed with Hyper IGM Syndrome and needs a blood stem cell transplant to survive. Unfortunately, he does not have a matching donor. Ari's parents are part of the SIU community. His mom is a staff member, and his dad is a graduate student. Let's show them our support.

Joining the Be the Match Registry is free and takes just a few minutes. It's a short digital form and a cheek swab. You could be the one to save Ari or another patient in need!

DATE	Feb 15th and 16th
TIME	10 AM - 2 PM
LOCATION	Student Center South Entrance
CONTACT	Shelly Ridgeway shelly.ridgeway@siu.edu
