REGISTER NOW at ITDAY.SIU.EDU

Professionals in business, industry, technology, and education are attending IT Day 2019.
Should you be among them?

The event is FREE and we provide breakfast and lunch.
All you need to do is visit itday.siu.edu and register. IT Day is Thursday, March 14, 2019.

About IT DAY 2019

IT Day 2019 offers a full day of high-quality presentations, working sessions, demonstrations, and tours all focused around the theme: *Driving Success with Technology—How technology is affecting our workspaces, academic places, and the people in them.* Sessions are not intended to be deep dives into technology. Our goal is to engage a diverse audience with eye opening and thought provoking ideas. We anticipate 400-600 attendees at IT Day 2019. Attendees include business, industry, and IT professionals (from the campus and the region); technologists, administrators, and educators from higher-ed, community colleges, and K-12; and students pursuing careers focused around technology. In addition to approximately 35 sessions, we have invited many of SIU's technology-rich areas to greet attendees on "Showcase Row."

A variety of learning tracks…

New Ideas and Challenges

Transformational Change in Academics and the Workplace

Positioning IT in the Organization

Advanced "Super" Computing

Leadership and Management

Business and Entrepreneurship

Technology Tools

Educators earn 5.75 professional development credits for attending IT Day.
